Work Experience

Lab Teacher's Assistant

Cal State University Northridge-Northridge, CA

September 2025 to Present

Assist students with understanding math concepts and solving problems during lab sessions. Provide one-on-one and group support by answering questions, clarifying instructions, and guiding students through exercises. Collaborate with the instructor to ensure students stay engaged and grasp key material. Foster a supportive and encouraging learning environment that promotes independent problem-solving and critical thinking.

Academic Tutor and Mentor

Granada Hills Charter High School-Granada Hills, CA

August 2021 to April 2024

- Provided individualized academic support to underclassmen, strengthening their understanding of core coursework and improving overall academic performance
- Led virtual operations of the online writing center, curating educational content, uploading instructional resources, and offering timely, high-quality academic guidance to students unable to attend in person
- Delivered expert assistance in writing, research, and study strategies, fostering academic independence and critical thinking skills among mentees
- Played a key leadership role within the AMP (Academic Mentorship Program) team, coordinating mentorship initiatives and contributing to program development to expand student access to academic resources
- Cultivated an inclusive and motivating learning environment through proactive communication, mentorship, and peer collaboration
- Consistently recognized for dedication to student success, adaptability in remote support settings, and ability to manage multiple academic support functions efficiently
- Gained valuable experience working with students on the autism spectrum, demonstrating patience, adaptability, and the ability to tailor communication and support strategies to meet their unique learning needs

Online Tutor

Reading Partners

August 2021 to April 2023

- Delivered one-on-one virtual literacy tutoring to elementary students through Reading Partners' structured curriculum, supporting skill development in reading fluency, comprehension, and vocabulary
- Guided students through interactive lessons using the "Read Aloud" and "Student Read" model, promoting engagement and active participation in reading
- Adapted teaching strategies to effectively support students with diverse learning styles, backgrounds, and developmental needs, including those requiring extra behavioral and academic support
- Fostered meaningful mentor-student relationships by creating a positive and encouraging virtual learning environment

- Contributed to measurable student progress by consistently tracking performance, offering personalized feedback, and reinforcing key reading concepts
- Made a meaningful difference by helping students grow into more confident, capable readers—empowering them with skills that positively impacted their classroom success and overall learning journey
